OUR PRACTICE

At Garfield Medical Centre, we welcome all our patients with the same zest and passion of offering best possible care for each and everyone. We strive to provide quality health care service to the community, a healthy working environment to the staff and a happy space for creative and innovative learning.

Garfield Medical Centre is a family- oriented, accredited General Practice owned and managed by GPs. We have both male and female doctors who are well experienced with a number of sub-speciality interests to cater for individual patients. We are committed to improving the quality of life and wellbeing of our patients, integrating current knowledge of curative space with empathy, compassion and kindness.

We are a young practice with a devoted aspiration to be a deservedly sought-after practice in Wentworthville and the surrounding suburbs of the Greater Western Sydney.
